

Američki mediji objavili su snimak koji je zabeležila sigurnosna kamera na jednoj benzinskoj stanici u Ohaju, na kojoj se vidi plavi dim kako se "nenormalno" kreće, što je neke navelo na zaključak da je reč o "plavom duhu". Kamera je uhvatila "nešto" plave boje, što se dobrih pola sata velikom brzinom kretalo po stanici i automobilima.

The image is a still from a security camera recording. It shows a gas station with several cars parked. A distinct blue smoke or vapor is rising from one of the cars, which is the subject of the article. The scene is captured from a distance, showing the layout of the gas station and the surrounding area.
